WORK EXPERIENCE

Senior Test Specialist

Feb 2024 - Present

iLink Digital , Pune

- Worked as an Automation Tester for Lite Portal and Backoffice Portal applications, saving **16 hours per release** in manual effort, which was redirected to critical testing tasks.
- Implemented web automation using **Playwright (JavaScript/TypeScript)**.
- Contributed as an **Automation** and **Manual Tester** for the Mashreq project involving migrated application testing.
- Actively involved in test planning, requirement analysis, test case creation, defect tracking, and test case execution.
- Conducted **load testing** using Apache **JMeter**, analyzing average API response times, identifying bottlenecks, and ensuring the application was production-ready.

Senior QA Engineer

May 2021 - Jan 2024

Cloud Software Group , Pune

- Worked as an **Automation Tester** for Tibco eDelivery, TAP, and Eval applications, saving **8 hours** per release in manual effort, which was utilized for critical testing activities.
- Built and maintained automated test scripts using **Selenium WebDriver with Java**.
- Worked as a **Manual Tester** for CRM/Salesforce-based end-to-end application testing (JEFE, BOSS instances).
- Collaborated in end-to-end testing activities including requirement analysis, test planning, test case design, execution, and defect tracking.
- Conducted **performance testing (load testing)** using **Apache JMeter**, identifying bottlenecks and ensuring the application was production-ready.

QA Engineer

Feb 2020 - May 2021

Perennial Systems Pvt Ltd , Pune

- Automated API's using Postman tool and run API Automation script for different collections .
- Performed Mobile testing of the app for Android and iOS Device.
- Contributed to requirement analysis, test case writing, reviewing, execution, and maintenance of test cases.

- Wrote detailed bug reports and tracking defects using Jira.

QA Engineer

Jan 2017 - Feb 2020

QA India , Pune

- Developed and maintained Selenium WebDriver scripts for regression testing.
- Executed automation test suites for web applications using Selenium WebDriver.
- Tested mobile applications on Android and iOS platforms.
- Carried out smoke, regression, and ad-hoc testing to ensure application quality.
